New asset class, traditional investment vehicle

The Magnet Trust 1.0 is an Australian wholesale (unregistered) unit trust, issuing units titled in each investors name. Such a structure provides a familiarity for financial advisors and simplicity for tax accounting.

High conviction portfolio, unique domain expertise

The Magnet Trust 1.0 employs a thesis driven, value based, long-term investment strategy, focused on real-world application and utility above all. Having launched in 2017, the investment managers have developed specialised industry knowledge and valuation techniques to capitalise on the most promising protocols and applications within this new asset class.
